West Academic, United States, 2015. Paperback. Condition: New. 3rd Revised edition. Language: English. Brand new Book. The Global Internet Law in a Nutshell begins with a review of the history, technology, and competing theories of the Internet that enables a deeper understanding of case law and statutory developments discussed in the substantive chapters. It briefly covers the history of the Internet through the rapidly evolving Web 3.0, competing theories of Internet governance, cyber jurisdiction and enforcement of judgments, choice and conflicts of law, cybertorts, online contracting and licensing including social media terms of use, the protection of online intellectual property assets, global consumer law, the protection of online privacy, criminal liability for Internet activity, and European Community statutes such as the General Data Protection Regulation, E-Commerce Directive, Brussels Regulation, and Rome I Regulation. The Third Edition presents a concise discussion of cloud computing and social media terms of use. Each chapter of this revised edition updates the key cases and statutory developments from the United States, Europe, and around the world. This book is an ideal beginning textbook as well as starting point for most Internet-related research. This short treatise provides a succinct summary of e-commerce law developments around the world.
